- a. The Purchaser expects the following month for the initial semen order * _____
- b. Purchaser must notify Rolling Stone Farm of the requested collection by at least 1 P.M. (Eastern Time) on the day semen is to be shipped. Rolling Stone Farm understands the unpredictability of cycling mares, but Rolling Stone Farm appreciates being kept apprised of the estimated day, exact destination and method of shipment as early as possible before requested collection date.
- c. All requests for the semen shipments shall be filled as received, subject to availability of Stallion's semen and farm veterinarian's approval. If there is insufficient semen to fill orders of a given day, the farm veterinarian will determine which orders will be honored. This decision will be based on the information provided by the purchaser's veterinarian.

- e. Purchasers who have received two shipments of semen without pregnancy will be expected to involve their veterinarian and Rolling Stone Farm in consultation to establish problems and their suggested solutions.

4. CONDITIONS:

- a. Stallion service will be provided only to healthy mares in sound breeding condition. In the case of a barren mare, Rolling Stone Farm suggests a recent negative intrauterine culture certificate (within 60 days of breeding). In some cases, a uterine biopsy and/or Progesterone assay may be requested by Rolling Stone Farm.
- b. The Mare must be examined by a licensed veterinarian between 45 and 55 days after the last day bred and Rolling Stone Farm notified of her pregnancy status within 10 days after said examination or

all guarantees are null and void.

5. RETURN OF SERVICE: Purchaser shall not be entitled to a refund of fees unless conditions in item 6 are present. However, the Mare shall have the right of return to Stallion's service in the following breeding season and in the third breeding season only in the following circumstances:

- a. If the Mare does not settle during the present breeding season she is eligible for the return of service to the same stallion if the Purchaser submits a veterinarian's certificate of barrenness. The Purchaser recognizes Rolling Stone Farm's right to require a negative intrauterine culture certificate prior to the Mare's return to service.
- b. If the Mare is examined to be in foal but becomes barren during gestation, she is eligible for return if Rolling Stone Farm receives a certificate of barrenness from a veterinarian within five days of examination.
- c. If the Mare produces a live foal that is unable to stand alone and nurse and subsequently dies, a veterinarian certificate must be provided to Rolling Stone Farm within five days from the date of death.
- d. In each and all cases the required veterinarian certificates shall affirm that the mare had been immunized for equine rhinopneumonitis in the 5th, 7th, and 9th month of pregnancy. Where appropriate, the certificates shall also confirm that the mare was properly cared for during gestation and was attended during foaling. Rolling Stone Farm's timely receipt of required certificates is a condition precedent to any return.
- e. All rights of return to the Stallion are subject to prepayment of costs in Item 2. Fees.

6. REFUND OF FEES: This agreement shall be null and void and the Purchaser shall be entitled to a refund of any amount paid if the stallion should die or become unfit for service prior to serving the mare in the current breeding season.

7. NON ASSIGNMENT: This agreement cannot be transferred or assigned by the purchaser without written permission of Rolling Stone Farm. There shall be no right of return to the Stallion if the mare is sold or otherwise changes ownership after being served by the Stallion without written permission of Rolling Stone Farm.
